LinkedIn | Portfolio Website

Summary

A dedicated Data Analyst with a strong foundation in Python, SQL, and Power BI. Proven ability to transform complex datasets into actionable business insights. Adept at interactive dashboard development, exploratory data analysis, and advanced DAX modeling to optimize analytical workflows and drive data-backed decision-making.

Education

Maharana Pratap College Mohania

B.A

Bihar, India

Jan-2022 – Aug-2023

Skills

- **Programming & Querying:** Python, SQL
- **Data Science & Analysis:** Pandas, NumPy, Matplotlib, Seaborn, Power BI, Statistical Analysis
- **Tools:** VS Code
- **Soft Skills:** Results-Driven, Passionate, Strategic Thinking, Problem-Solving, Effective Communication, Time Management, Team Collaboration, Adaptability

Work Experience

Rays Edu. Pvt. Ltd. – Data Analyst Intern

Nov 2025 – Present

- Collected, cleaned, and transformed structured and unstructured datasets using Python, Pandas, and NumPy to improve data quality and analysis readiness.
- Performed Exploratory Data Analysis (EDA) to identify trends, anomalies, and actionable business insights from large datasets.
- Developed and optimized SQL queries for data extraction, aggregation, validation, and reporting from relational databases.
- Created interactive dashboards and visual reports in Power BI to track key performance indicators (KPIs) and support business decision-making.
- Automated repetitive data processing and reporting tasks using Python, improving efficiency and reducing manual effort.
- Conducted data validation, cleansing, and quality assurance processes to ensure accurate and reliable reporting.
- Leveraged Generative AI tools to assist with data interpretation, report generation, insight extraction, and analytical workflow optimization.
- Collaborated with cross-functional teams to gather business requirements and deliver data-driven recommendations for process improvement.
- Documented analytical methodologies, dashboards, and reporting processes to ensure knowledge sharing and maintainability.

Projects

Rapido Ride-Sharing Data Analysis & Dashboard | *Role: Data Analyst / BI Developer*

Tools & Technologies: Power BI, SQL, Data Modeling, DAX, Python (Pandas)

Key Responsibilities & Achievements:

- **Dashboard Development:** Designed and developed an interactive Power BI dashboard to track key ride-sharing business metrics, including total revenue, active riders, and daily completed rides.
- **Advanced DAX & KPI Creation:** Formulated complex DAX measures to calculate critical KPIs such as Ride Cancellation Rate, Average Trip Fare, and Peak-Hour Surge Demand.
- **Data Cleaning & SQL Queries:** Extracted, cleaned, and transformed raw ride datasets using SQL queries and relational database schemas to ensure accurate and seamless reporting.
- **Actionable Business Insights:** Visualized customer booking patterns and geographic heatmaps to identify high-demand zones, providing insights that optimize driver allocation and reduce wait times.

Achievements

- Solved **500+ problems** on platforms such as LeetCode, GeeksforGeeks, and InterviewBit.
- Earned the **SQL50 badge** on LeetCode.
